

# ANGLER EDITION

Full Inner-Liner with Forward & Aft Casting Platforms  
Standard Port & Stbd. Insulated Aft Fish Boxes

## "BUILT BY OWNERS, FOR OWNERS, WHEN QUALITY & PERFORMANCE COUNTS"

The 22' BaD Cat has a unique symmetrical hull configuration designed to capture air like a racing catamaran resulting in a vertical lift and secure. It's razor-sharp entry point slices through a nasty chop keeping you dry while providing ultimate in performance, superior handling, with a smooth and comfortable ride. Our resin vacuum infusion system delivers a substantial reduction in weight, providing better fuel efficiency, a tougher, stronger, and more robust composite structure. *Fully Custom Center Console Catamarans with Unmatched Performance. Dream it, Experience it, and we will Build it Today.*

### We are NOT a COOKIE-CUTTER Production Boat Builder!

**VACUUM INFUSION BENEFITS:** Controlling costs during the build process without compromising the integrity, utilizing state-of-the-art High-End composites, infusing the build of each hull, deck, and components throughout the entire build. A significantly stronger assembly versus heavy hand lamination.

**~ No Wood ~ No Rot ~ No Soft Spots ~ No Air Voids ~ No Filling Cavities with Glue, Foam, or Putty ~ No Plastic Inserts ~**

Our philosophy is to create custom catamarans exceeding the owners' expectations, as we pride ourselves in the customer experience! We encourage you to ride in other boats and then ride in ours. **Quality is not expensive, it is PriceLess!**

**\*\*** Performance Package inclusive of Performance Steering System, Buoyancy Stabilizer Platforms, Upgraded Transom Design, & Hi-Perf. Jack-Plate.
